

Report on Awareness program for prevention of forest fires

Organised by Yuva Tourism Club, GDC Banjar

The **Yuva Tourism Club** of **Government Degree College, Banjar**, District Kullu (Himachal Pradesh), organized an environmental awareness initiative to sensitize students about **environmental conservation** and the **prevention of forest fires**. As part of this initiative, the members of the club installed **awareness posters and visual displays** across **all floors of the college building** to effectively communicate the message to the entire student community.

The posters highlight the adverse impact of forest fires on biodiversity, wildlife, climate, and human life, and emphasize the role of individuals in preventing such incidents. Through powerful visuals and messages, the initiative aimed to encourage students to adopt responsible behavior towards forests and the environment.

These awareness materials were made available to the Yuva Tourism Club by **Mr. Stephen, Director, Himalayan Eco Tourism**, who had visited the college in the previous month. The posters were provided during his visit with the objective of supporting youth-led environmental initiatives and promoting sustainable tourism practices.

The **Yuva Tourism Club, GDC Banjar**, expresses its sincere gratitude to the **Director, Himalayan Eco Tourism**, for his valuable support and contribution. The club also reaffirmed its commitment to collaborate with the Himalayan Eco Tourism organization in organizing various environmental, educational, and awareness-based activities in the future.

Through this initiative, the Yuva Tourism Club once again demonstrated its dedication towards **environmental protection, forest conservation**, and the promotion of **sustainable tourism**. The activity successfully created awareness among students and reinforced the importance of collective responsibility in safeguarding natural resources for future generations.
